

SCAVENGER HUNT

How many garden items and creatures can you find during your event?
Tick them off as you go - or collect petals, leaves and twigs to make animal collages!

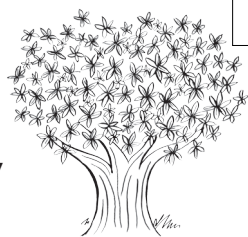

Daisies

These little flowers with yellow centres and white petals are called daisies - from 'day's eye' - as they open in the daytime. You can even make daisy chains out of the little ones on the lawn.

Tree

Big or small can you find a tree in the garden? Do you know what type it is?

Plants in pots or containers

How many can you count?

Cake

Did someone say cake?

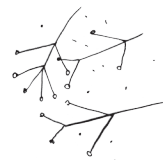

Roses

Fragrant and colourful, how many roses can you spot?

Twigs

If you're allowed why not collect some to add to your animal collage - they make great legs!

Leaves

Most plants in the garden will have these and you can make great pictures using them too!

Birds

Can you spot them in the trees - or maybe you can find a feather or two to add to your collage?

Snail

Follow the silver trail to find a snail...

If you're making an animal collage you'll need a piece of paper - or just make it on the ground - you could make a whole zoo!
