

National Garden Scheme

Great gardens, great cakes, great causes

Founded in 1927 by The Queen's Nursing Institute, the National Garden Scheme brings together a passion for great gardens and great cakes to raise funds for charity. We rely on the generosity of over 3,500 garden owners who open their gardens to the public to raise millions of pounds each year for some of the UK's best-loved nursing and health charities. These include Macmillan Cancer Support, Marie Curie, Hospice UK, Carers Trust, The Queen's Nursing Institute, Parkinson's UK, Horatio's Garden and Maggie's.

Your visits to our gardens help us to help others
